

## Webinar : DESIGNING FOR PEOPLE

Platform: Google Meet

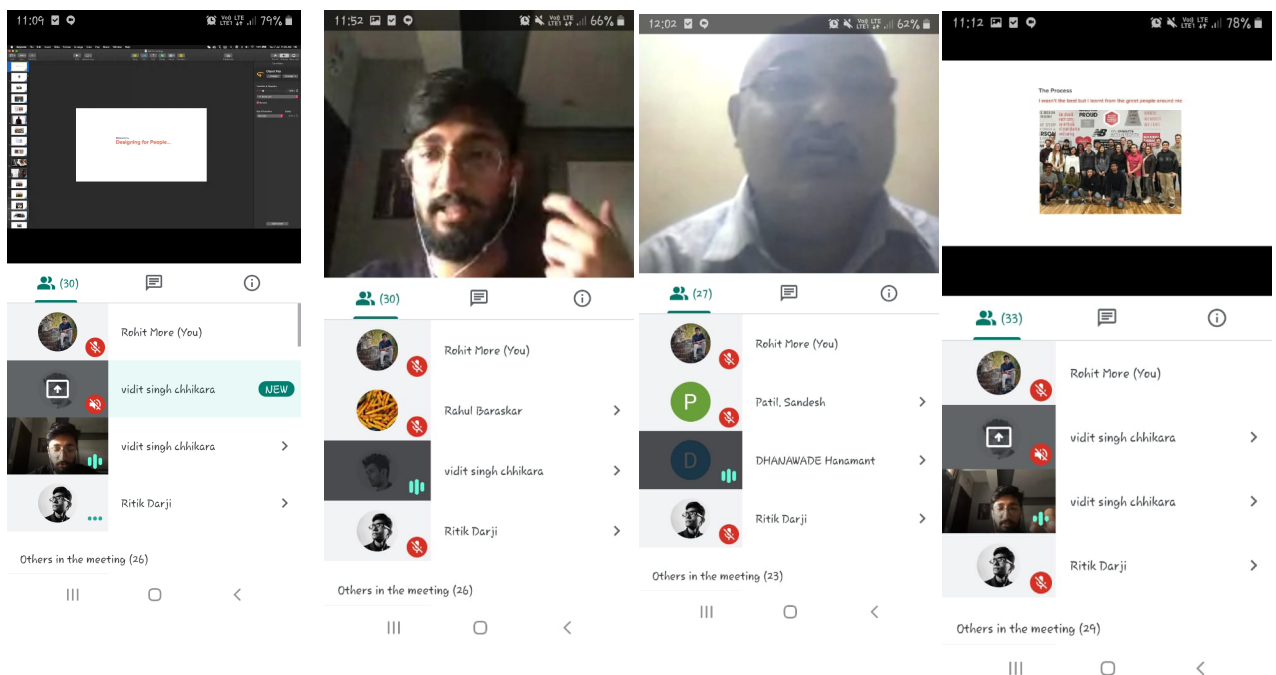

Reported by: Technical Club, MESA

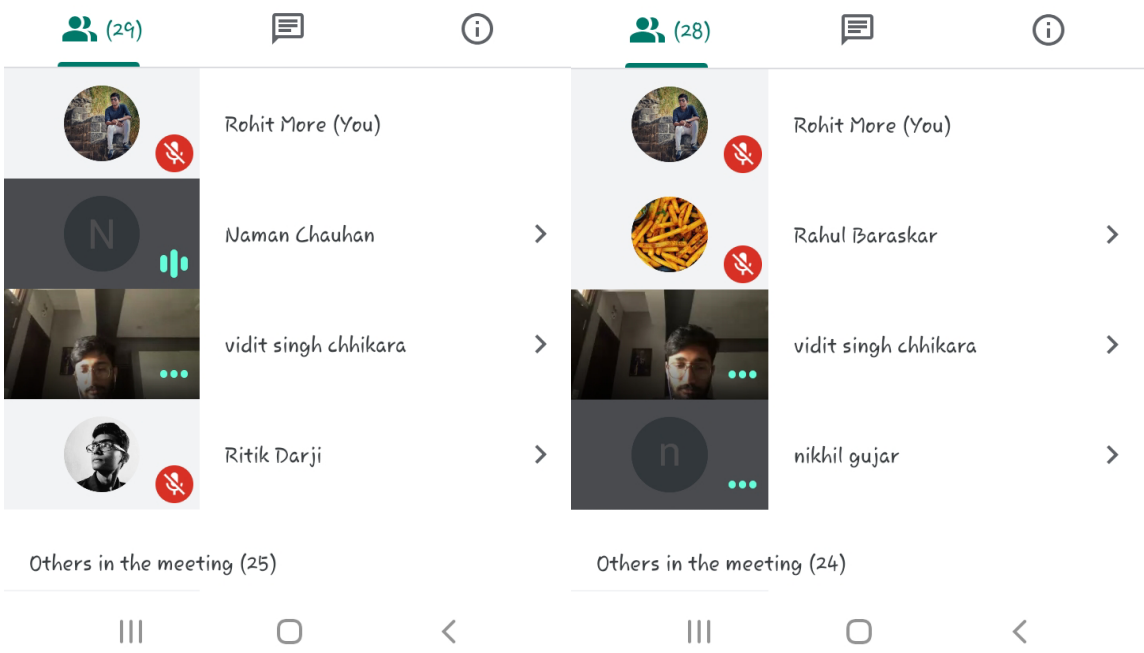

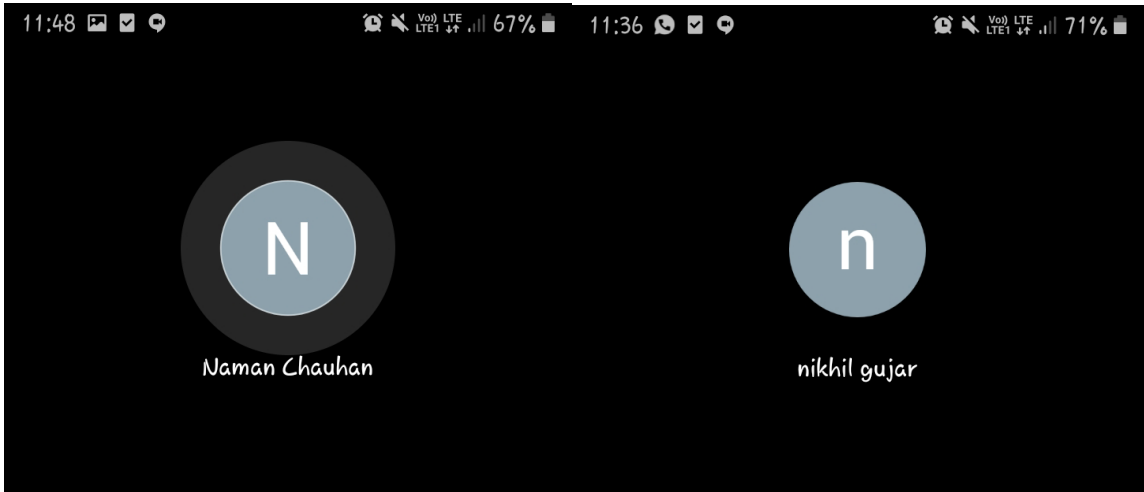

Date: 7<sup>th</sup> of July, 2020

A webinar was held on product design led by the speaker Mr. Vidit Singh organised by the Technical club of the MESA, SIGCE for all the students of college on 7<sup>th</sup> of July, 2020 on the google meet platform.

The webinar was organised for the students to get the information about product design processes and to have an exposure to different aspects in the product design field which is emerging in the tech field. The event started with the introduction of the speaker to the students and with the greetings from the MESA Convenor and HOD Dr. H. S. Dhanawade sir. Then the speaker gave lot of valuable information on product design and the changes starting in the field of technology and services. The speaker acknowledged the different aspects and how it is useful and works with hands in hands along with the engineering. The audience got a brief idea about product design and various information including all the aspects of how it will affect the engineering and technology sector. Later there were some questions raised by the students which were answered by the speaker. Speaker too inspired the students through his journey, how to proceed and give a approach.

The webinar was very interactive from both ends. Students got useful information about the topic and response was overwhelming from students side too. Here are some of the glimpse from webinar
